EDUCATION

Eötvös Loránd **University in Budapest, Hungary.** (September 2017 – January 2022)
Bachelor of Computer Science
- **Web Development on JavaScript**
- **Algorithms and Data Structures**
- **Object Oriented Programming on Java and Python**

SKILLS

- HTML
- CSS
- JavaScript
- Java
- C++
- Python
- SQL
- React
- Node
- Express
- Jest
- NPM
- MongoDB
- Git

PROFESSIONAL EXPERIENCE

- **Web Developer Internship** at Eötvös Loránd University, Media & Educational Informatics department.
  (April 2021 – July 2021)
  - Created a web surface connecting and scheduling different online activities of TeT lab.
  - Constructed simultaneously **Front-end** using **JavaScript** and **Back-end** with **PHP**.

PROJECTS

- **Survey Storage** – form generating web application, which provides to build a survey.
  - Full-stack application, designed with **React, Node, MongoDB, and Express** for 60 days' sprint.
  - Implemented using **JWT** and **Bcrypt** dependencies, to secure user authentications.
  - Created an **NPM package** for **React** that allows developers to use the survey form on other web pages.
- **Smart Journey** – flight search service to find the effective combination of trips up to 5 destinations at once.
  - Single page application, developed with **React** using SkyScanner flights API.
  - Built a **Unit test** for more than 80 functions, and **Interaction test** using **Jest** testing library.
  - Developed following **UI/UX design** like interaction, visual and motion design.

ACHIEVEMENTS

- Google UX Design Certificate (Foundation of User Experience Design).
- JavaScript Skill Certificate from HackerRank.
- React Skill Certificate from HackerRank.
- Grant to "Stipendium Hungaricum" scholarship.
- Top places in Arduino Robot competition among "Sapat" educational institutions.

LANGUAGES

- English – Full Professional Proficiency
- Russian – Native or Bilingual Proficiency
- Kyrgyz – Native or Bilingual Proficiency
- Turkish – Limited Working Proficiency

INTERESTS

- Front-end Developer
- Back-end Developer
- UX engineer
- Full-stack Engineer
- Software Engineer
- Cloud Engineer
